LeetCode 50 Days Badge 2026 — 141 solved (81E/53M/7H) · 69-day GitHub streak · 441 contributions · Rank 1,309,499

SUMMARY

Pre-final year B.Tech CSE student specialising in cybersecurity, with hands-on experience building production-grade intrusion detection systems. Flagship project: **ZeroContext IDPS** — a C++/Python/PyTorch system that detects non-human behaviour through kernel-level behavioral biometrics, serving a live SOC dashboard. IBM Cybersecurity Fundamentals certified (Credly, PWID-B0454800). Consistent problem-solver: 141 LeetCode problems (81E/53M/7H), 69-day GitHub streak, 441 contributions.

TECHNICAL SKILLS

Languages	C++, Python, Java, SQL, MySQL, Bash	Security	IDS/IPS, Behavioural Biometrics, Packet Sniffing, Kali Linux, Unix UDS/IPC, Threat Modelling
ML / DL	PyTorch, scikit-learn (Isolation Forest), NumPy, Matplotlib	Tools	FastAPI, asyncio, aiomysql, Git, GitHub, VS Code, MySQL Workbench, Jupyter

PROJECTS

■

ZeroContext IDPS — Flagship · C++ · Python · PyTorch · scikit-learn · FastAPI · asyncio

■

· MySQL · Kali Linux

github.com/a23894843/ZeroContext

Multi-threaded **C++ sensor daemon** intercepts raw /dev/input mouse & keyboard events at kernel level; streams microsecond-precision telemetry via **Unix Domain Sockets** to Python asyncio engine.

PyTorch Autoencoder models mouse kinematics (velocity/acceleration/delta-t) — flags non-human patterns via reconstruction loss; **Isolation Forest** detects anomalous keystroke dynamics (dwell + flight time) in real time.

Full async pipeline: **FastAPI SOC Dashboard** (1.5s live refresh) · MySQL threat log · JSONL telemetry ledger · auto post-session ML training.

Cyber Defensive Engine C++ · Python · ML · UDS

- Hybrid **C++ packet sniffer** + Python unsupervised ML — real-time DDoS & port scan detection with automated responses via Unix Domain Sockets.

Dr. Vaccine Antivirus Java · OOP · Security

- Signature-based antivirus** in Java — MD5 pattern-matching, recursive folder scan, quarantine functionality, real-time monitoring UI.

INTERNSHIP

Python Intern — CodSoft

Aug 2025

- Contact Management System** (Python/Tkinter + MySQL) with full CRUD · **Secure password generator** · GUI game — 3 production apps delivered in 30 days.

EDUCATION

B.Tech — CS & Engineering (Cybersecurity)	Gurukul Kangri Vishwavidyalaya (Deemed University)	2023–Present	CGPA: 7.755
12th & 10th — CBSE	S.B.N. International School, Laksar	2022 / 2020	67% / 70%

CERTIFICATIONS

■ LeetCode 50 Days Badge 2026 — 141 solved (81E/53M/7H) · 69-day streak · 441 GitHub contributions	2026
Cybersecurity Fundamentals — IBM SkillsBuild (Credly verified, ID: PWID-B0454800)	2026
Python Internship — CodSoft AI & ML Workshop — Sofcon India Pvt. Ltd.	2025
Intelligent BMS (AI/Safety) — MathWorks Tech Discussion — NDLI Club	2025/24
